Tasks and responsibilities 19.05.2003–31.12.2003 **Das Zweite Fernsehen AG, Straubing**
Das Zweite's history started in 1991. Today, Das Zweite is one of the biggest subscription TV stations in Europe with more than 2.7 million subscribers and can be counted among the most innovative companies in the German media landscape.

Project leader strategic IT control

- Concept monitoring in the department CC Info Funclub. Kept track of strategic orientation of the Premiere Info Funclub and installed additional basic operational systems such as APIx and SAP
- Extension of the company's data model within the framework of the project's information logistics

After successful familiarization with the work processes at Das Zweite, achieved the following goals:

Bewerbungsvorlagen, Muster & Checklisten – powered by www.jobscout24.de

- *Established a preliminary study for integrating additional Pay-per-View data into the Info Funclub*
- *Supported the process of selecting a new ETL-tool for the Info Funclub*
- *Supported the project until the Info Funclub strategy was established*
- *Established a preliminary study on continuing the project on information logistics.*

My position was eliminated in the wake of a major cost-cutting campaign in IT. My contract will be terminated on 31.12.2008.
